Monday	15/06/ 2009	23:00	0:00		On		On		On

\* **Load shedding:** method of reducing demand (load) on the energy generation system by temporarily switching off distribution of energy to different geographical areas.

**Key:**

Day: Day of possible load shedding Monday - Friday

Date: Date of possible load shedding.

Time Start: Time that possible load shedding will commence.

Time End: Time that possible load shedding will end

**Customer:** NamPower customers (local authorities, RED's, mines, farmers and NamWater). The general public will be informed about possible load shedding by their service providers.

**Power On:** No load shedding (green). Customers are however requested to use electricity sparingly.

**Power Off:** Load shedding is being implemented (red). Customers will be informed by their respective service providers as to which geographical areas will be affected by load shedding.

**Please Note:**

This is the proposed Load Shed Schedule for June 2009. The customer schedule will change on monthly basis to rotate customers for scheduling during day- and night time. The Power On/Off schedule will change on a daily basis. Should you have any enquiries with regard to the Load Shed Schedule, please call our National Control Centre at +26461261241
