

SOME ALIEN INVASIVE PLANTS, & LITTER

Photo 4. The alien *Ricinus communis* (Castor oil plant) which can be confused with *Datura* due to the spiky pods but the leaves are quite different.

Photo 5. The alien *Datura* spp with white trumpet-shaped flower (circled) and spiky pods (oval). Alien plants must be poisoned before they set seed.

Photo 6. Yes its true! Cows, other livestock and wild animals do sometimes eat plastic bags with fatal consequences!
