

Map Sheet: 1714 Oshakati: Preferred alternative (red) route

Photo 25: West of point O, the preferred route crosses to the north side of the tar road (C46) to Ruacana, which is shown running parallel with the canal. Note the large fruit trees and palms that will need to be avoided as far as possible.

Photo 26: Mopane shrub with scattered fruit trees and mahango fields. Onesi dam is just visible in the background.
